

**HANSON SCHOOL DISTRICT 30-1
2017-18 ACTIVITY PARTICIPANT PACKET**

ATTENTION: PARENTS/LEGAL GUARDIANS AND ACTIVITY PARTICIPANTS

WARNING AND SAFETY STATEMENT

Although participation in supervised interscholastic athletics and activities may be one of the least hazardous any student will engage in; by its nature, participation in interscholastic activities includes a risk of injury which may range in severity from minor to catastrophic injuries, including permanent paralysis or death. Organized high school athletics is an activity that involves the potential for injury which is inherent in all sports.

MEDICAL INSURANCE

All students participating in interscholastic activities are required to have medical insurance. **(Please check the appropriate line below)**.

- We do have family medical insurance (*or Medicaid*).
- We do **not** have family medical insurance & wish to purchase the basic family medical policy.

Schools have insurance applications for school-time and full-time coverages.

YEAR-ROUND ACTIVITY RULES

We have read the Hanson School District year-round Activity Rules in the student handbook and agree to abide by its rules and regulations.

SDHSAA IN-SEASON RULE

A student who is a member of a high school team may not participate in games, practice, tryouts in that particular sport during the same season on an independent or non-high school team or as a member of an "All Star" team. Violation of this rule causes the student to become ineligible for the high school team for the remainder of that sport season. Participation in SDHSAA sponsored activities is voluntary on the part of the student and is considered a privilege. Personally identifiable directory information may be disclosed as a result of participation in SDHSAA sponsored activities. Notify the school in writing if you do not want this information disclosed.

By signing below, we consent to participation in SDHSAA approved athletics at Hanson School, acknowledge that we agree to all of the above statements and rules, as well as the Consent for Release of Medical Information (HIPAA), and Consent for Medical Treatment.

Authorization for Release of Medical Information (HIPAA)

(Health Insurance Portability and Accountability Act)

Student Name _____

Date of Birth _____

Grade _____ (Season 2017-18) Gender F M

- I authorize the use or disclosure of the above named individual's health information including the Pre-Participation History and Physical Evaluation information pertaining to a student's ability to participate in school-sponsored/approved activities. Such disclosure may be made by a Health Care Provider generating or maintaining such information
- The information identified above may be used by or disclosed to the school nurse, athletic trainer, coaches, medical providers and other school personnel involved in the care of this student.
- This information for which I am authorizing disclosure will be used for the purpose of determining the student's eligibility to participate in co-curricular activities, any limitations on such participation and any treatment needs of the student.
- I understand that I have a right to revoke this authorization at any time by sending a written notice of revocation to the building Principal. I understand that the revocation will not apply to information that has already been released in reliance upon this authorization.
- This authorization will expire on: 6/30/2018.
- I understand that once the above information is disclosed, the recipient may re-disclose it and federal privacy laws or regulations may not protect it and the information.
- I understand authorizing the use or disclosure of the information identified above is voluntary. However, a student's eligibility to participate in co-curricular activities depends on such authorization. I need not sign this form to ensure healthcare treatment.
- Notice: Organizations or persons who receive education records as defined by the Federal Educational Rights and Privacy Act (FERPA) may not provide access to such records to any other party without the written consent of the parent/guardian of the student.

CONCUSSION FACT SHEET FOR ATHLETES

What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body
- Can change the way your brain normally works
- Can occur during practices or games in any sport or recreational activity
- Can happen even if you haven't been knocked out
- Can be serious even if you've just been "dinged" or "had your bell rung"

All concussions are serious. A concussion can affect your ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most people with a concussion get better, but it is important to give your brain time to heal.

What are the symptoms of a concussion?

You can't see a concussion, but you might notice one or more of the symptoms listed below or that you "don't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should I do if I think I have a concussion?

- **Tell your coaches and your parents.** Never ignore a bump or blow to the head even if you feel fine. Also, tell your coach right away if you think you have a concussion or if one of your teammates might have a concussion.
- **Get a medical check-up.** A doctor or other health care professional can tell if you have a concussion and when it is OK to return to play.
- **Give yourself time to get better.** If you have a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have another concussion. Repeat concussions can increase the time it takes for you to recover and may cause more damage to your brain. It is important to rest and not return to play until you get the OK from your health care professional that you are symptom-free.

How can I prevent a concussion?

Every sport is different, but there are steps you can take to protect yourself.

- Use the proper sports equipment, including personal protective equipment. In order for equipment to protect you, it must be:
 - The right equipment for the game, position, or activity
 - Worn correctly and the correct size and fit
 - Used every time you play or practice
- Follow your coach's rules for safety and the rules of the sport
- Practice good sportsmanship at all times

It's better to miss one game than the whole season.

THIS FORM MUST BE SIGNED ANNUALLY AND MUST BE AVAILABLE FOR INSPECTION AT THE SCHOOL

CONCUSSION FACT SHEET FOR PARENTS

What is a concussion?

A concussion is a brain injury. Concussions are caused by a bump, blow, or jolt to the head or body. Even or what seems to be a mild bump or blow to the head can be serious.

What are the signs and symptoms?

You can't see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days after the injury. If your teen reports, one or more symptoms of concussion listed below, or if you notice the symptoms yourself, keep your teen out of play and seek medical attention right away.

Signs Observed By Parents or Guardians	Symptoms Reported by Athlete
<ul style="list-style-type: none"> • Appears dazed or stunned • Is confused about assignment or position • Forgets an instruction • Is unsure of game, score, or opponent • Moves clumsily • Answers questions slowly • Loses consciousness (even briefly) • Shows mood, behavior, or personality changes • Can't recall events prior to hit or fall • Can't recall events after hit or fall 	<ul style="list-style-type: none"> • Headache or "pressure" in head • Nausea or vomiting • Balance problems or dizziness • Double or blurry vision • Sensitivity to light or noise • Feeling sluggish, hazy, foggy, or groggy • Concentration or memory problems • Confusion • Just not "feeling right" or is "feeling down"

How can you help your teen prevent a concussion?

Every sport is different, but there are steps your teens can take to protect themselves from concussion and other injuries.

- Make sure they wear the right protective equipment for their activity. It should fit properly, be well maintained, and be worn consistently and correctly.
- Ensure that they follow their coaches' rules for safety and the rules of the sport
- Encourage them to practice good sportsmanship at all times.

What should you do if you think your teen has a concussion?

1. **Keep your teen out of play.** If your teen has a concussion, her/his brain needs time to heal. Don't let your teen return to play the day of the injury and until a health care professional, experienced in evaluating for concussion, says your teen is symptom-free and it's OK to return to play. A repeat concussion that occurs before the brain recovers from the first – usually within a short period of time (hours, days, or weeks) – can slow recovery or increase the likelihood of having long-term problems. In rare cases, repeat concussions can result in edema (brain swelling), permanent brain damage, and even death.
2. **Seek medical attention right away.** A health care professional experienced in evaluating for concussion will be able to decide how serious the concussion is and when it is safe for your teen to return to sports.
3. **Teach your teen that it's not smart to play with a concussion.** Rest is key after a concussion. Sometimes athletes wrongly believe that it shows strength and courage to play injured. Discourage others from pressuring injured athletes to play. Don't let your teen convince you that s/he's "just fine".
4. **Tell all of your teen's coaches and the student's school nurse about ANY concussion.** Coaches, school nurses, and other school staff should know if your teen has ever had a concussion. Your teen may need to limit activities while s/he is recovering from a concussion. Things such as studying, driving, working on a computer, playing video games, or exercising may cause concussion symptoms to reappear or get worse. Talk to your health care professional, as well as your teen's coaches, school nurse, and teachers. If needed, they can help adjust your teen's school activities during her/his recovery.

**THIS FORM MUST BE SIGNED ANNUALLY AND MUST BE AVAILABLE FOR
INSPECTION AT THE SCHOOL**

Hanson School District 30-1 Pre-participation Health History

Parent/Guardian must complete this form before the physical evaluation will be given.

Name: _____ Gender: F M School: _____
 Student ID #: _____ DOB: _____ Grade (Fall 2017): _____

Hanson School District 30-1 requires all students who plan to participate in interscholastic activities to have on file in their school a record of satisfactory medical history and physical evaluation performed by a duly licensed Health Care Provider. This form must be completed by the PARENT or GUARDIAN and all "Yes" answers must be explained in the space below.

Yes No

		Yes	No
1.	Has a doctor ever denied or restricted your participation in sports for any reason?		
2.	Do you have an ongoing medical condition (like diabetes or asthma)?		
3.	Are you currently taking any prescription or non-prescription (over-the-counter) medicines or pills?		
4.	Do you have allergies to medicines, pollens, foods, or stinging insects?		
5.	Have you ever passed out or nearly passed out DURING exercise?		
6.	Have you ever passed out or nearly passed out AFTER exercise?		
7.	Have you ever had discomfort, pain, or pressure in your chest during exercise?		
8.	Does your heart race or skip beats during exercise?		
9.	Has a doctor ever told you that you have a heart murmur, high blood pressure, high cholesterol, or a heart infection?		
10.	Has a doctor ever ordered a test for your heart? (for example: ECG, echocardiogram)		
11.	Has anyone in your family died for no apparent reason?		
12.	Does anyone in your family have a heart problem?		
13.	Has any family member or relative died of heart problems or of sudden death before age 50?		
14.	Does anyone in your family have Marfan Syndrome?		
15.	Have you ever spent the night in a hospital?		
16.	Have you ever had surgery?		
17.	Have you ever had an injury, like a sprain, muscle or ligament tear, or tendonitis that caused you to miss a practice or game?		
18.	Have you had any broken or fractured bones or dislocated joints?		
19.	Have you had a bone or joint injury that required x-rays, MRI, CT, surgery, injections, rehabilitation, physical therapy, a brace, a cast, or crutches?		
20.	Have you ever had a stress fracture?		
21.	Have you been told that you have or have you had an x-ray for atlantoaxial (neck) instability?		
22.	Do you regularly use a brace or assistive device?		
23.	Has a doctor ever told you that you have asthma or allergies?		
24.	Do you cough, wheeze, or have difficulty breathing during or after exercise?		
25.	Is there anyone in your family who has asthma?		
26.	Have you ever used an inhaler or taken asthma medicine?		
27.	Were you born without or are you missing a kidney, an eye, a testicle, or any other organ?		

Yes No

28.	Have you had infectious mononucleosis (mono) within the last month?		
29.	Do you have any rashes, pressure sores, or other skin problems?		
30.	Have you had a herpes skin infection?		
31.	Have you ever had a head injury or concussion?		
32.	Have you been hit in the head and been confused or lost your memory?		
33.	Have you ever had a seizure?		
34.	Do you have headaches with exercise?		
35.	Have you ever had numbness, tingling, or weakness in your arms or legs after being hit or falling?		
36.	Have you ever been unable to move your arms or legs after being hit or falling?		
37.	When exercising in the heat, do you have severe muscle cramps or become ill?		
38.	Has a doctor told you that you or someone in your family has sickle cell trait or sickle cell anemia?		
39.	Have you had any problems with your eyes or vision?		
40.	Do you wear glasses or contact lenses?		
41.	Do you wear protective eyewear, such as goggles or a face shield?		
42.	Are you unhappy with your weight?		
43.	Are you trying to gain or lose weight?		
44.	Has anyone recommended you change your weight or eating habits?		
45.	Do you limit or carefully control what you eat?		
46.	Do you have any concerns that you would like to discuss with a doctor?		

Females only:

47.	Have you ever had a menstrual period?		
48.	How old were you when you had your first menstrual period?		
49.	How many periods have you had in the last 12 months?		

Explain "Yes" answers here: _____

To my best knowledge, everything is complete and correct. There are no other reasons not to qualify my child for activities. I give permission to the school or health care provider to complete a physical evaluation on my child named above.

Date: _____ Parent/Guardian Signature _____

If your son or daughter experiences pain or injury prior to, during or between activity seasons, please follow your physician's advice for care and inform the coach / director of the concern. Permanent injury often can be prevented by early recognition and appropriate precautions.
